VERMONT SPAY-NEUTER INCENTIVE PROGRAM REMINDER

By spring, nearly 4,000 will have been issued to qualifying Vermonters to have their cats and dogs neutered through VSNIP! In hopes of reaching out to those in need, we'd like to ask that you kindly include this reminder in the appropriate section in your Town Report.

It's important that townspeople understand that it is necessary to register dogs by April 1st, helping to fund this important program. In advance, we thank you for following through to be sure that all dogs in town are registered and the extra \$4 collected for this designated fund.

A rabies vaccination is included in the VSNIP procedure, as well as one vaccination of the distemper series, and the neutering of their cat or dog. We do have rabies in the state, and unfortunately your pet may contract rabies and lose its life. Companion animals, livestock and people can get rabies. This important step of neutering assists in reducing the numbers of 'surplus' animals that might well go homeless.
