Hopefully going to meet with the guy from Tac-2 this week to get our new pagers.

New Business: Need to come up with training schedule on what we want to do for training nights.

Have 911 maps on computer so we can hook to projector and bring them up and have a game plan on different address's that are hard to get to or don't have easy access.

Going to have a couple of cars we can use to train on and cut apart.

Talked with Jeff Gingue, we can use hydrant at old Pikeplant if need be, he says it has plenty of water year round.
